

Egress Secure Workspace

Collaborate seamlessly and securely with colleagues and external parties.

Teams under pressure to meet tight deadlines need a single place to securely share, edit and store the latest versions of sensitive documents – particularly when collaborating with external users who are restricted from accessing internal networks.

We offer easy-to-use file sharing and collaboration tools so your team can deliver results faster, while keeping personal and commercial data secure. Using Secure Workspace, organisations are empowered to:

Keep sensitive data safe

Protect your files with accredited security and granular controls.

Comply with regulations

Avoid data breaches and the significant financial impacts of stringent global regulations.

Fast-track productivity

Accelerate business-critical projects with seamless mobile interactivity.

Minimise disruptions to workflows

Keep your organisation moving with our easyto-use interface that removes friction.

Simple, secure file sharing and collaboration

Our encrypted environment empowers employees to easily and securely share, store and work on Microsoft Office documents, PDFs and large files, including multimedia.

We enable administrators to control how internal and external users interact with specific content, and provide a clear view of activity through detailed audit logs. Multi-factor authentication delivers additional security for highly sensitive data.

Securing 1,000+ large organisations

Secure collaboration on the go

Using the Secure Workspace for Mobile app, employees can work productively and securely on the move by uploading documents, photos and videos from any internet-enabled mobile device - whether it's connected to a network or not.

As an extension to Secure Workspace, the app also enables users to review audit trails, revoke access to files and classify imagery. Multiple users can access the app on a shared device, reducing your hardware costs.

"Egress Secure Workspace's full audit capabilities enable us to see exactly what our partners are doing – from the documents they've accessed to when they accessed them."

HEAD OF TECHNICAL SOLUTIONS AND SECURITY, PEABODY GROUP

Accelerating productivity with a simple user interface

Our simple interface makes it easy for users to share entire Secure Workspace zones, or individual folders and files. Desktop integration minimises disruption with their established workflows.

It's free for third parties to access content shared with them and they can apply the right level of security to data in keeping with your organisation's policy.

Teams benefit from real-time online document editing and version control, and PDF annotation can be either public or private, with a locked-down area for comments.

For more information please contact your account manager or call 0844 800 0172

About Egress

Our vision is for a connected world in which people communicate efficiently and securely. To achieve this, we provide human layer security to protect individual users and stop breaches before they happen.
