

Definely Draft is our one-click solution to simplify how you understand, draft and review your legal documents.

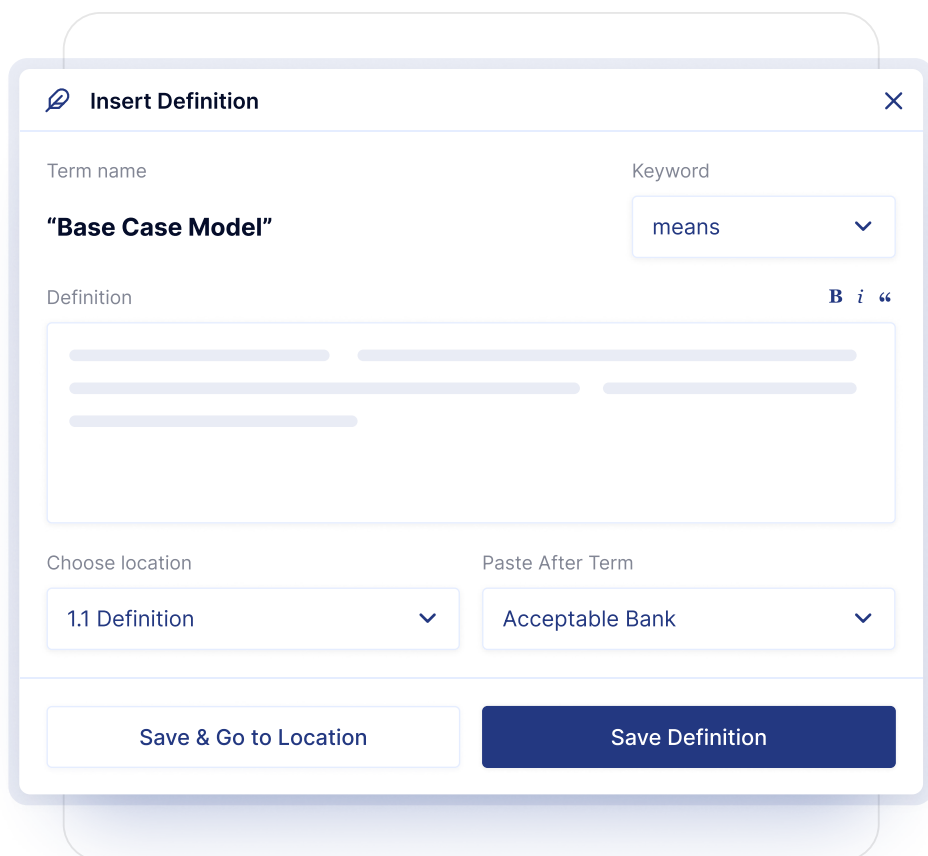

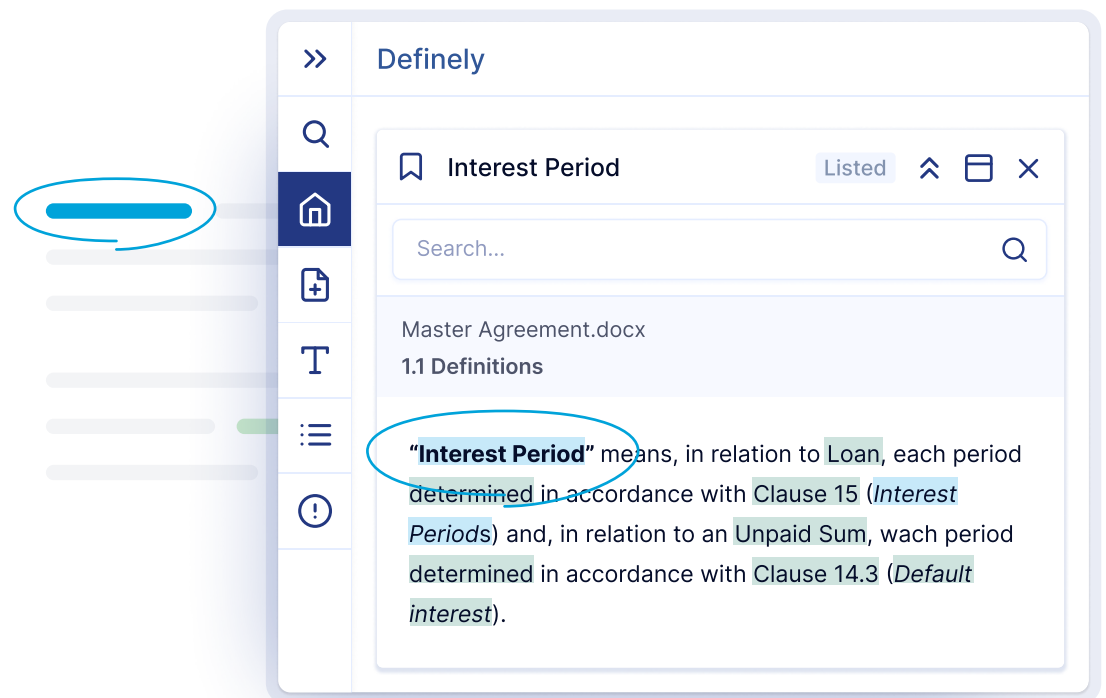

Key Product Benefits and Features

Definitions + references a double-click away

Good riddance to endless scrolling, ctrl+F, split screens and hard copies - unlock the meaning of any definition or reference in the Definely Draft side panel with a double click.

View key information contained elsewhere in your agreement without ever losing the provision being reviewed.

-  Scan large documents in seconds
-  Highlight definitions and references
-  Double click to display meanings

Context when it counts most

No more relying on presumed knowledge or switching between clauses - keep your context when drafting and reviewing legal documents with Definely Draft.

-  Edit definitions and references in split screen
-  Insert definitions in the pop out window
-  Work across multiple documents

Automate the non-billable

Reduce the chance of human error and deliver clean contracts in less time by using Definely Draft's reports to ensure consistent definitions and references within your documents.

-  Generate definition and reference reports
-  Identify undefined and unused terms
-  Integrate with track changes
