

Produce Pristine Contracts, Every Time

Definely Proof allows you to produce cleaner contracts in less time.
Automate hundreds of proofreading checks with the click of a button.

Detect definition issues

- Fix inconsistent punctuation, quotes, styles and fonts
- Sort defined terms into the correct alphabetical order
- Flag terms used in a document before they have been defined

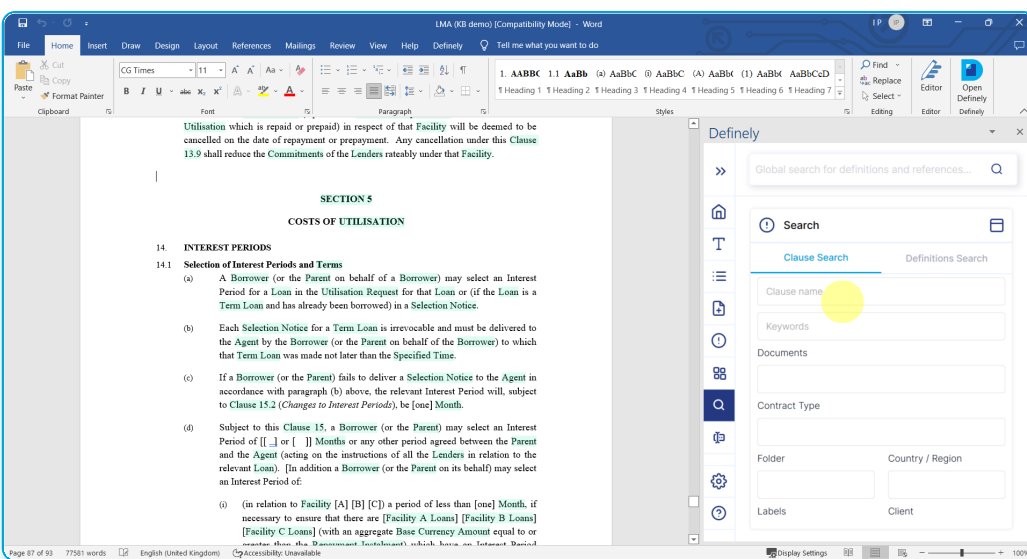

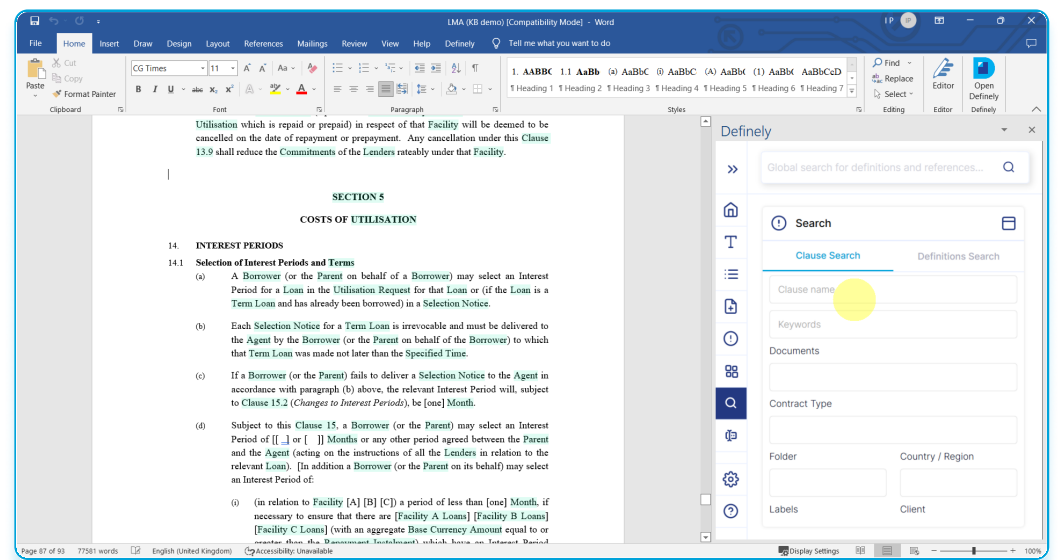

Save time with Smart Search

- Flag any mention of numbers or money in the document
- Locate all the dates and times in the document
- Highlight any use of geographic locations in the document

Catch cross-reference issues

- Identify cross-references that are not hyperlinked
- Locate cross-references not found or need updating
- Detect mentions of external documents in your agreement

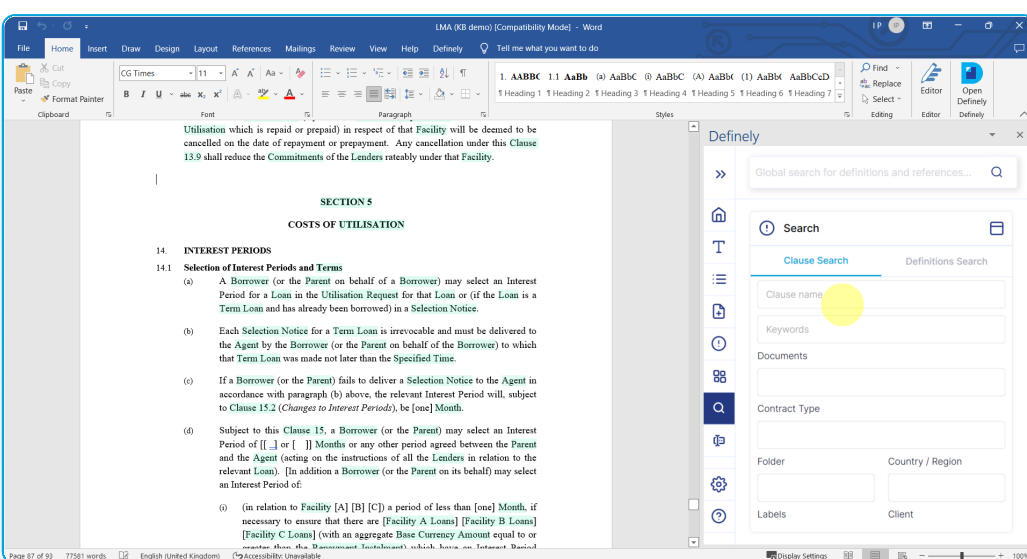

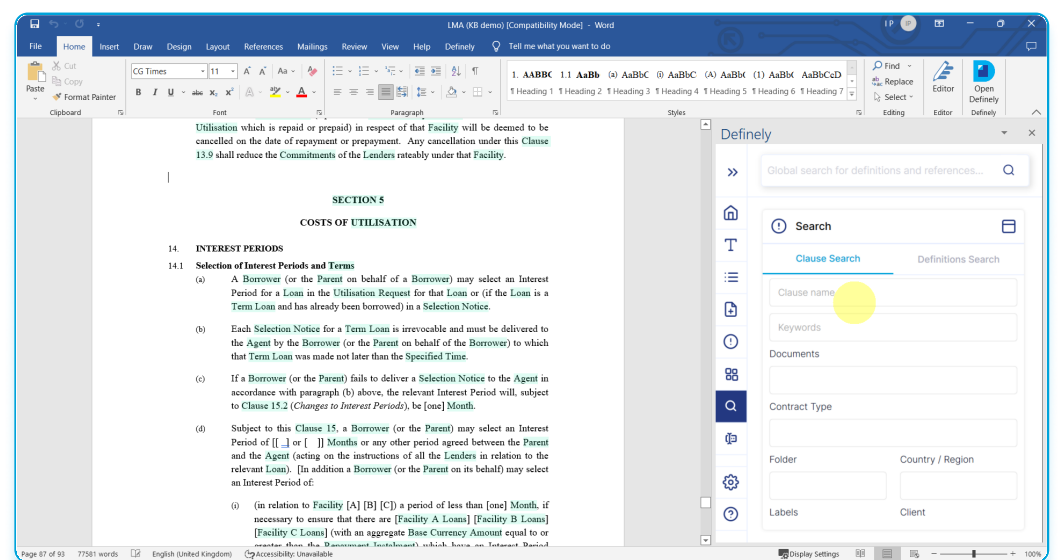

Confirm consistent capitalisation

- Find defined terms that are not capitalised
- Pinpoint incorrect or inconsistent capitalisation
- Locate any inconsistent capitalisation of a defined term

Flawless formatting

- Report issues by category for easy review
- Identify incorrect, missing, inconsistent or double spacing
- Ensure perfect alignment between all numbers and their corresponding description in the document

Delete drafting notes

- Flag empty parenthesis and brackets in your agreement
- Highlight underscores, underlines or highlighted text
- Identify inserted comments that should be removed
