

Next generation anonymization software

www.cleardox.io

The Challenge

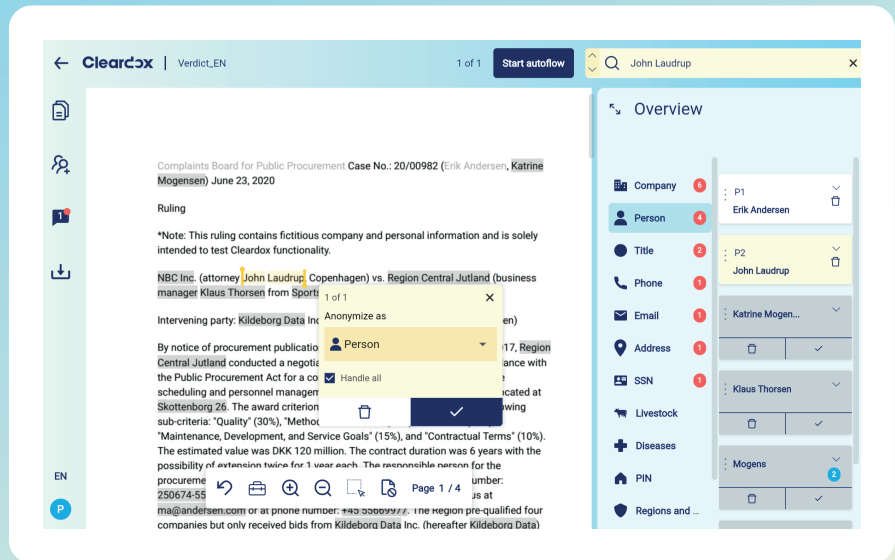

The way legal documents are anonymized today is very manual.

Anonymization Redefined

Experience ClearDox: Your all-in-one anonymization solution. Manage the entire process seamlessly.

Modern technology

Using artificial intelligence, Clearbox can automatically identify and anonymize personal information in documents.

 Person names	 Phone numbers	 E-mail address	 Domain names
 Locations	 Dates	 Social security number	 Logo
 Property number	 Companies	 Organization names	 Add your own

Bespoke by nature

Tailor the system to your requirements with these customizable add-on features.

Multiple Cases

The screenshot displays three overlapping interface windows. The top window, titled 'My documents', lists files such as 'Judgment-FINAL', 'Verdict', 'Clinical trial', 'Judgment-FINAL (2)', and 'PDC_AS_mod_Region_Hovedstaden (5) (1)'. The bottom window, titled 'Overview', shows a table with columns for 'Company', 'Person', 'Title', and 'Phone', containing entries like 'Complaints Bo...', 'Erik Andersen', 'Director', and 'Klaus Thorsen'. The right window, titled 'Comments', shows a list of comments from 'of@cleardox.io' on 'Page 1', 'Page 3', and 'Page 8'. Three yellow circles with plus signs are overlaid on the interface, highlighting the '+ Add' button, the document list, and the 'Close' button.

Bulk Anonymization

ClearDox Collaborate

Security

- ISAE 3000 certified
- European hosting setup (No schrems-II issue)
- Safe environment (encryption, logging, automatic deletion)
- Irreversible documents
